ACM ICPC Dhaka Regional, 2017

Dear Participants,

On behalf of ACM ICPC Dhaka Regional, 2017 judging team, we thank you for registering. The preliminary contest will take place at **3 PM on 23rd September, 2017 (Saturday).** The platform for the contest will be https://algo.codemarshal.org/. Codemarshal team will soon mail you, your ID and password to attend the preliminary contest. If you haven't got your ID/password before the mock session or you face any problem regarding logging in, please mail us at **baps.bgd@gmail.com.**

The preliminary contest will decide which teams qualify for the ACM ICPC Dhaka Regional, 2017 hosted by University of Asia Pacific on 11-12 November, 2017.

There will also be a **mock session** before preliminary contest. That will take place at **3 PM on 22nd September, 2017 (Friday).** The ID for mock and preliminary should be the same.

Each and every team participating in the preliminary contest must follow the rules and regulations given below. Universities are responsible to make sure its teams are abiding by the rules. Failing to do so will disqualify the team(s).

Rules and Regulations:
- It's a team contest. You are not allowed to take help of any person other than your team members. This does not include your coach.
- You are allowed to use books or online materials during the contest. But if more than one team copies from the same source code available online and that leads to plagiarism charges, only the teams will be responsible.
- You cannot use any Q&A site such as stackoverflow or similar to ask for help from others.
- You cannot copy any code or ask for solution to any other person.
- You cannot post your solution or give any hint about any problem during the contest. Even if you are using any pastebin site, it's your responsibility that it remains private only to you and your team members.
- Teams should use a single computer at a time. Parallel coding is not allowed.

ANY VIOLATION OF THE RULES AND REGULATIONS WILL RESULT YOUR TEAM'S' DISQUALIFICATION.

Qualification Criteria:

1. To be qualified for the onsite regional, a team must solve at least one problem.
2. As seats are limited, teams will be selected based on quota for each university.
3. Quota of a particular university will be decided based on the performance of ACM ICPC Dhaka Regional, 2016 and 2015.
4. Universities participating for the first time will have special quota based on performance of this year's preliminary contest.
5. Some special quota will be given to teams based on superior performance in preliminary contest.
6. Some special quota will be given to universities who qualified for the ACM ICPC World Finals.
7. An university can swap only one team from the selected list of its team. But the team must solve at least one problem in the preliminary contest. For this, the coach of both teams must mail the organizers within 24 hours of the list being published. Note that, this rule doesn't apply to those universities which will get only one team to ACM ICPC Dhaka Regional, 2017.

Hope you have a nice contest. Happy coding!
